**LIMITED REVIEW REPORT TO THE SHAREHOLDERS OF
EMAAR THE ECONOMIC CITY (A SAUDI JOINT STOCK COMPANY)
ON THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

Scope of review

We have reviewed the accompanying consolidated balance sheet of Emaar The Economic City - a Saudi Joint Stock Company - ("the Company" or "the Parent Company") and its subsidiaries (the "Group") as at 30 June 2016 and the related consolidated statement of income for the three-month and six-month periods then ended, and the related consolidated statements of cash flows and changes in shareholders' equity for the six-month period then ended. These interim consolidated financial statements are the responsibility of the Company's management and have been prepared by them and submitted to us together with all the information and explanations which we required. We conducted our limited review in accordance with the Saudi Organization for Certified Public Accountants' standard on interim financial reporting. A limited review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion on the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

Emaar The Economic City (A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

At 30 June 2016

1 ACTIVITIES

Emaar The Economic City ("the Company" or "the Parent Company") is a Saudi Joint Stock Company incorporated and operating in the Kingdom of Saudi Arabia under Ministerial Decision No. 2533, dated 3 Ramadan 1427H, corresponding to 21 September 2006. The Company obtained its initial Commercial Registration No. 4030164269 on 8 Ramadan 1427H, corresponding to 26 September 2006. The registered office of the Parent Company has been shifted to Rabigh with a revised Commercial Registration No. 4602005884, dated 6 Rabi Awal 1436H, corresponding to 28 December 2014.

The Parent Company is engaged in the development of real estate in the economic or other zones and other development activities including infrastructures, promotion, marketing and sale of land within development areas, transfer/lease of land, development of buildings/housing units, construction on behalf of other parties. The main activity of the Company is the development of the King Abdullah Economic City (KAEC).

2 BASIS OF PREPARATION AND CONSOLIDATION

2.1 BASIS OF PREPARATION

The interim consolidated financial statements have been prepared in accordance with Saudi Accounting Standard for interim financial information issued by Saudi Organization for Certified Public Accountants ("SOCPA"). The interim consolidated financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with accounting standards generally accepted in the Kingdom of Saudi Arabia.

The interim consolidated financial statements are expressed in Saudi Riyals, being the functional currency of the Parent Company and its subsidiaries and have been rounded off to the nearest thousand, unless otherwise specified.

The results presented in the interim consolidated financial statements may not be an accurate indicator of the annual financial result.

2.2 BASIS OF CONSOLIDATION

The interim consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries (collectively "the Group"), after elimination of all material inter-group transactions and balances.

The Company has investments in the following subsidiaries, which are primarily involved in development, investments, marketing, sale/lease, operations and maintenance of properties, providing higher education and establishment of companies.

<i>Name</i>	<i>Country of incorporation</i>	<i>Year of incorporation</i>	<i>% of capital held (directly or indirectly)</i>	
			2016	2015

Emaar Knowledge Company Limited ("EKC") (see note below)	Saudi Arabia	2015	100%	-

During the year ended 31 December 2015, the Parent Company invested SR 9.6 million that represents 96% of the capital of EKC. The balance 4% is owned by subsidiaries of the Parent Company.

2 BASIS OF PREPARATION AND CONSOLIDATION (continued)

2.2 BASIS OF CONSOLIDATION (continued)

Subsidiary

Subsidiary is a company in which the Group has, directly or indirectly, long term investment comprising an interest of more than 50% in the voting capital or over which it exerts control. Subsidiaries are consolidated from the date the Group obtains control until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using consistent accounting policies. All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions are eliminated in full on consolidation.

Non-controlling interests represent the portion of profit or loss and net assets that are not held by the Group and are presented separately in the consolidated statement of income and within equity in the consolidated balance sheet, separately from the Parent Company's shareholders' equity.

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted by the Group for the preparation of the interim consolidated financial statements are in accordance with the accounting standards generally accepted in the Kingdom of Saudi Arabia and are consistent with those used for the preparation of the annual financial statements for the year ended 31 December 2015.

The interim consolidated financial statements have been prepared under the historical cost convention on the accrual basis of accounting, modified by the adjustment for arriving at the net present value of the Employees' receivable - Home Ownership Scheme and to include the measurement at fair value of assets classified as held for disposal.

The significant accounting policies adopted are as follows:

Use of estimate

The preparation of interim consolidated financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and expenses during the reporting period.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash with banks and other short-term highly liquid investments, if any, with original maturities of three months or less.

Murabaha term deposits with banks

Murabaha term deposits with banks include placements with banks with original maturities of more than three months and less than one year from the placement date. Income on Murabaha term deposits with banks is recognised on an effective yield basis.

Accounts receivable

Accounts receivable are stated at original invoice amount less provision for any uncollectible amounts. An estimate for doubtful accounts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred. Any subsequent recoveries of amounts previously written-off are credited in the consolidated statement of income.

Development properties

Properties acquired, constructed or in the course of construction and development for sale are classified as development properties. Unsold properties are stated at the lower of cost and net realizable value. Sold properties in the course of development are stated at cost plus attributable profit less progress billings. The cost of development properties includes the cost of land and other related expenditure which is transferred to development properties as and when activities that are necessary to get the properties ready for sale are in progress. Net realizable value represents the estimated selling price less cost of completion and costs to be incurred in selling the property.

The property is considered to be completed when all related activities, including the infrastructure and facilities for the entire project, have been completed and handed over and title is transferred. At that stage, cost, attributable profit/loss and progress billings are eliminated from development properties. Management reviews the carrying values of the development properties at each reporting date.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment properties

Properties held for rental or capital appreciation purposes as well as those held for undetermined future use are classified as investment properties. Investment properties are carried at cost less accumulated depreciation and impairment losses, if any. Investment properties include buildings which are depreciated on a straight line basis over the estimated useful life of 30 years.

Properties are transferred from investment properties to development properties when and only when there is a change in use, evidenced by commencement of development with a view to sell. Such transfers are made at the carrying value of the properties at the date of transfer.

Investment in an equity accounted investee

The Group's investment in an equity accounted investee represents investment in those entities over whose activities the Group has joint control, established by contractual arrangements and requiring unanimous consent for strategic financial and operating decisions. This also includes those entities in which the Group has significant influence, but not control, over the financial and operating policies, generally accompanying a shareholding between 20% and 50% of the voting rights.

Investment in equity accounted investee is accounted for using the equity method of accounting together with any long-term interests that, in substance, form part of the investor's net investment in the equity accounted investee. Under the equity method, the investment in the equity accounted investee is carried in the interim consolidated balance sheet at cost plus post-acquisition changes in the Group's share of net assets of the equity accounted investee less dividend and impairment loss, if any.

When the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount of Group's investment is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of an equity accounted investee.

Employee Home Ownership Scheme

In accordance with the Group's policy, the Group sells the built units to employees under interest free finance lease arrangement for a period of twenty years. The employee is entitled to continue in the scheme, even after retirement / resignation or termination from the Company. The gross value of the lease payments is recognized as a receivable under employee home ownership scheme. The difference between the gross receivable and the present value of the receivable is recognized as an unearned interest income with a corresponding impact in the interim consolidated statement of income as employee benefit expense. Interest income is recognized in the interim consolidated statement of income over the term of the lease using the effective rate of interest. In case of cancellation of the employee home ownership contract by the employee, the amount paid by the employee under the scheme is forfeited and recognized in the interim consolidated statement of income.

Property and equipment

Property and equipment is stated at cost less accumulated depreciation and any impairment in value. The cost less estimated residual value of property and equipment is depreciated on a straight line basis over the estimated useful lives of the assets.

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount, being the higher of their fair value less costs to sell and their value in use.

Expenditure for repair and maintenance are charged to interim consolidated statement of income. Improvements that increase the value or materially extend the life of the related assets are capitalised.

Capital work-in-progress is measured at cost less impairment losses, if any, and not depreciated until such time the assets are ready for intended use and transferred to the respective category under property and equipment.

Borrowings

Borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, commission bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Non-current assets held for disposal

Non-current assets that are classified as held for disposal are measured at the lower of their carrying amount and fair value less costs to sell. Assets are transferred to non-current assets held for disposal when it is expected that the carrying amount will be recovered principally through disposal rather than from continuing use. For this to be the case, the asset must be available for immediate disposal in its present condition subject only to terms that are usual and customary for disposals of such assets and its disposal must be highly probable.

Accounts payable and accruals

Liabilities are recognised for amounts to be paid for goods and services received, whether or not billed to the Group.

Provisions

Provisions are recognised when the Group has an obligation (legal or constructive) arising from a past event, and the costs to settle the obligation are both probable and may be measured reliably.

Zakat

Zakat is provided for in accordance with the Saudi Arabian fiscal regulations. The provision is charged to the interim consolidated statement of income. Additional amounts, if any, that may become due on finalization of an assessment are accounted for in the year in which assessment is finalized.

Deferred contribution

Deferred contribution represents amounts received from customers in respect of infrastructure assets, which are recognised as an obligation to provide access to the properties sold. The obligation, which is measured with reference to the contributions received, is then amortised over the useful life of the infrastructure assets for the portion that relates to infrastructure assets and the contributions that relates to the land is recognised as revenue upon transfer of land title.

Employees' terminal benefits

Provision is made for amounts payable under the Saudi Arabian labour law applicable to employees' accumulated years of service at the balance sheet date. The liability is calculated at the current value of the vested benefits to which the employee is entitled, should his services be terminated at the interim consolidated balance sheet date.

Revenue recognition

Revenue represents fair value of the consideration received or the contractually defined terms of payment. Revenue is recognized when it is probable that the economic benefits will flow to the Group, the cost incurred to date and expected future costs are identifiable and can be measured reliably and the amount of revenue can be measured reliably. The specific recognition criteria described below must also be met before the revenue is recognized.

Sale of property

Revenue on sale of plots of land is recognized on the basis of the full accrual method as and when all of the following conditions are met:

- (a) a sale is consummated and contracts are signed;
- (b) the buyer's investment, to the date of the interim consolidated financial statements, is adequate to demonstrate a commitment to pay for the property;
- (c) the Group's receivable is not subject to future subordination;
- (d) the Group has transferred to the buyer the usual risks and rewards of ownership in a transaction that is in substance a sale and does not have a substantial continuing involvement with the property; and
- (e) work to be completed is both easily measurable and accrued or is not significant in relation to the overall value of the contract.

Revenue on sale of apartments and villas is recognized on the basis of percentage of completion as and when all of the following conditions are met:

- i) the buyer's investment, to the date of the interim consolidated financial statements, is adequate (20% and above) to demonstrate a commitment to pay for the property;
- ii) construction is beyond a preliminary stage. The engineering, design work, construction contract execution, site clearance and building foundation are finished;
- iii) the buyer is committed; the buyer is unable to claim a refund except for non-delivery of the unit; and
- iv) the aggregate sales proceeds and costs can be reasonably estimated.

Rental income

Rental income from investment properties is accounted for on a straight-line basis over the lease term.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition (continued)

Service revenue

Revenue from rendering of services is recognized when the outcome of the transaction can be estimated reliably, by reference to the stage of completion of the transaction at the interim consolidated balance sheet date

Hospitality revenue

Revenue from hotel accommodation, food and beverages and other related services are recognised, net of discount and municipality fees on an accrual basis when the services are rendered.

School revenue

Tuition, registration and other fees are recognized as income on an accrual basis.

Costs of revenue

Costs of revenue includes the cost of land, development and other service related costs, including cost of construction.

The costs of revenues in respect of sold apartments and villas is based on the proportion of the development cost incurred to-date to the estimated total development costs for each project.

The costs of revenues in respect of land sales includes cost of land.

The costs of revenues in respect of hotel and school is based on actual cost of providing the services.

Borrowing costs

Borrowing costs that are directly attributable to the construction of an asset are capitalised using capitalisation rate up to the stage when substantially all the activities necessary to prepare the qualifying asset for its intended use are completed and, thereafter, such costs are charged to the interim consolidated statement of income. In case of specific borrowings, all such costs, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale, are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Foreign currency transactions

Foreign currency transactions are translated into Saudi Riyals using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses, resulting from the settlement of such transactions and from the translation at the period-end exchange rates of monetary assets and liabilities, denominated in foreign currencies, are recognized in the interim consolidated statement of income.

Non-monetary items measured at historical cost denominated in a foreign currency are translated at the exchange rate at the date of initial recognition.

Offsetting

Financial assets and liabilities are offset and the net amount reported in the interim consolidated balance sheet only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liability simultaneously. Income and expense is not offset in the interim consolidated statement of income unless required or permitted by the generally accepted accounting principles in the Kingdom of Saudi Arabia.

Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing products or services (a business segment) or in providing products or services within a particular economic environment (a geographic segment), which is subject to risks and rewards that are different from those of other segments.

	2,345,067	2,338,638

On 14 Jumada Awal 1431H (corresponding to 29 April 2010), the Port Development Company (PDC), a Closed Joint Stock Company was incorporated in the Kingdom of Saudi Arabia, which is engaged in development, operation and maintenance of the King Abdullah Port at KAEC (the Port). During 2011, the shareholders of PDC entered into an agreement, whereby, the shareholding structure and funding mechanism of PDC was agreed. As per the terms of the agreement, the Company's shareholding in PDC was agreed to be 34%.

In 2012, to contribute a part of the equity funding under the agreement, the Parent Company invested SR 145 million in the form of land, infrastructure and other development cost.

On 8 October 2013, the shareholders of PDC resolved to increase the shareholding of the Parent Company to 74%. The shareholders further amended the agreement on 16 April 2014, reducing the shareholding of the Parent Company in PDC to 51%. On 17 July 2014, the shareholders of PDC amended the agreement, reducing the shareholding of Parent Company to 50%. Pursuant to the terms of the revised agreement, the shareholders of PDC have concluded that they have joint control over PDC and hence the management of the Company has classified the investment as "Investment in an equity accounted investee".

The Company had also provided a corporate guarantee to a commercial bank, amounting to SR 269 million, limited to its revised shareholding percentage in PDC, to allow PDC to secure Shariah compliant commodity Murabaha facility to partially finance the construction costs of the Port. Furthermore, during the year ended 31 December 2015, the Company had provided an additional corporate guarantee to a commercial bank, amounting to SR 500 million, limited to its shareholding percentage in PDC, to allow PDC to secure Shariah compliant commodity Murabaha facility.

7 ASSETS CLASSIFIED AS HELD FOR DISPOSAL

The Group has identified certain assets, which are to be disposed off in line with the strategic business plans of the Group. Accordingly, these assets are classified as held for disposal. During the period ended 30 June 2016, these assets have been reviewed for impairment. Based on this review, an impairment of SR 44 million (2015: SR 10.4 million) has been recognised in the interim consolidated statement of income.

- (a) During 2011, the Parent Company received a loan of SR 5,000 million from the Ministry of Finance for the development of KAEC. The loan is secured against pledge of 24.7 million sqm of the Greenfield land and carries annual commission at commercial rates and was originally repayable, with a three years grace period, in seven annual instalments commencing from 1 June 2015. However, based on the Company's request submitted before the due date, the MoF, during September 2015, has rescheduled the loan by extending the grace period for an additional period of five years. The principal amount is now repayable in seven annual instalments commencing from June 2020 with accrued commission payable on an annual basis.
- (b) During 2014, the Parent Company has signed an Islamic facility agreement with a commercial bank for SR 2,000 million Murabaha liquidity finance facility that carries commission at commercial rates. The outstanding balance of the long term loan at 30 June 2016 amounted to SR 1,100 million (2015: SR 1,100 million). As per the terms of the agreement, the loan is repayable in eight bi-annual instalments from 30 June 2018 to 31 December 2021. The loan is secured against the pledge of shares of the Company in PDC and an order note for SR 2,500 million.

10 LONG TERM LOANS (continued)

During 2015, the Parent Company has signed an Islamic facility agreement with a commercial bank for SR 1,000 million that carries commission at commercial rates, which has not been availed yet. As per the terms of the agreement, the loan is repayable in eight bi-annual instalments from 20 October 2019 to 20 April 2023. The loan is secured against KAEC's Greenfield Land held by the Parent Company and an order note for SR 1,200 million.

During 2014 and 2015, the Company has signed two facility agreements with a commercial bank for SR 1,000 million each carrying commission at prevailing commercial rates. The outstanding balance of the loan at 30 June 2016 amounted to SR 1,000 million (2015: SR 500 million). As per the terms of the agreements, the loan terms are door to door 8 years with 3 years grace period starting from respective dates of the agreements. In order to comply with the Sharia principles, an additional facility of SR 250 million has been arranged by the bank linked to each of the facility, to permit the rollover (repayment and drawdown) so that the principal amount is available to the Company for the first 3 years of the loan. Each loan facility is secured against Greenfield Land held by the Parent Company and an order note for SR 1,250 million each.

14 CONTINGENT LIABILITIES AND COMMITMENTS

Contingent liabilities and commitments as at 30 June 2016 are described as below:

- (a) The Group has contracted with its industrial customers to provide property management and city maintenance services. The costs of providing these services to industrial customers may be higher than the fee or charges that the Group may be able to charge to its industrial customers. The financial effect if any, is not currently practicable to estimate.
- (b) During the year ended 31 December 2015, one of the customers filed a claim against the Parent Company relating to the handover of a property and the damages due to alleged delays, against which the customer had failed to pay the due amounts on due dates. Though Appellate Court has issued a ruling against the Company, subsequently the Company filed an appeal with the Supreme Justice Council against the ruling. The Supreme Justice Council directed the Company to write to the Royal Court. The Company firmly believes that the case will be decided in their favour. Pending appeal decision, the financial effect, if any, cannot be estimated reliably.
- (c) The Company has also provided two corporate guarantees to commercial banks to allow PDC to secure Shariah compliant commodity Murabaha facilities (note 6).
- (d) The Group has outstanding commitments related to future expenditure for the development of KAEC, amounting to SR 1,875 million (2015: SR 2,950 million).

15 SEGMENTAL INFORMATION

Currently, the Group is principally involved in sale of plots and apartments and villas in KAEC and in providing certain ancillary services such as hospitality, education and lease, which are not significant to the entire Group's business. Accordingly, the management believes that at this stage, the Group's business activity falls within a single business segment which is subject to same risks and returns and non-disclosure of segment information may not affect the decisions of the users of these interim consolidated financial statements.

16 APPROVAL OF THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The interim consolidated financial statements were approved and authorised to issue by the Board of Directors on 28 July 2016, corresponding to 23 Shawwal 1437H.
